ANNUAL INDEX OF AUTHORS

Agahanov, S. A. and Natanson, G. I. *Approximation of functions by Fourier-Jacobi sums* 1

Agranovič, M. S. *Positive problems of mixed type for certain hyperbolic systems* 539

Aĭzenberg, L. A. *The general form of a linear continuous functional in spaces of functions that are holomorphic in convex domains of C^n* 198

Aksen′, M. B. and Tureckiĭ, A. H. *Best quadrature formulas for certain classes of functions* 203

Akulenko, L. D. *Multifrequency oscillations and rotations* 1250

Al′ber, S. I. *Topology of function spaces* 700

Al′ber, S. I. and Al′ber, Ja. I. *The method of differential descent for solving multidimensional variational problems* 1614

Aleksandrov, A. D. *The projection method in the study of solutions of elliptic equations* 984

Alekseev, A. D. *A case of the discontinuous Riemann problem* 343

Alenicyn, Ju. E. *Univalent functions without general values in a multiply connected domain* 305

Aliev, F. S. *On the solution in generalized functions of certain ordinary differential equations with polynomial coefficients* 347

Solutions in generalized functions for ordinary differential equations with polynomial coefficients 1024

Allahverdiev, Dž. È. *Multiply complete systems and nonselfadjoint operators depending on a parameter λ* 4

Amstislavskiĭ, V. I. *Set-theoretical operations and recursive hierarchies* 1029

Andrunakievič, V. A. and Arnautov, V. I. *Invertibility in topological rings* 1254

Andrunakievič, V. A. and Rjabuhin, Ju. M. *Additive theory of ideals in rings, modules and groupoids* 653

Annin, B. D. *A property of the solution of the equation $u_{xx}u_{yy} - u_{xy}^2 = 1$* 658

Antohin, Ju. T. *Analytic approach to the problem of equations of the first kind* 445

Apokorin, D. S. *Asymptotic behavior of the probabilities of errors of the first and second kind in testing hypotheses on the spectrum of a Gaussian stationary process* 351

Arakeljan, N. U. *Entire functions of finite order with an infinite set of deficient values* 1303

Arenson, E. L. *Certain properties of algebras of continuous functions* 1522

Arhangel′skiĭ, A. V. *A criterion for the existence of a bicompact element in a continuous decomposition. A theorem on the invariance of weight under open-closed finite-to-one mappings* 249

The closed image of a metric space can be condensed to a metric space 1109

A theorem on the metrizability of the inverse image of a metric space under an open-closed finite-to-one mapping. Example and unsolved problems 1258

Azbelev, N. V.; Li Mun Su and Ragimhanov, R. K. *Defining the concept of a solution to an integral equation with discontinuous operator* 1437

Babaev, A. A. *Some properties of a singular integral with a continuous density, and its applications* 608

Some estimates for a singular integral 1307

Badkov, V. M. *Approximation of functions by Fourier-Jacobi sums* 450
Bahtin, I. A. *Use of topological methods in the study of critical operating conditions in a reactor* 312
Balk, M. B. *Values assumed by entire polyanalytic functions* 308
Barban, M. B. and Gordover, G. *Moments of the number of classes of purely radical quadratic forms with negative determinant* 356
Bavrin, I. I. *Integral representation of holomorphic functions of several complex variables* ... 936
Bazaliĭ, B. V. *Wave motions of a liquid with allowance for surface tension* 1062
Belickiĭ, G. R. *Automorphisms of order lattices on the set of matrix norms* 86
Beljaev, Ju. K. *Confidence intervals in the case of functions of many unknown parameters* .. 988
Beljakin, N. V. *Turing machines operating on a plane* 661
Berezanskiĭ, I. A. *Limits of molecular measures in certain spaces* 1441
Limits of positive molecular measures in certain uniform spaces 1494
Beriev, A. D. *Imbedding theorems for* $W_{p_0\overline{p}}^{(\overline{l})}$, $B_{p_0\overline{\theta}}^{(\overline{l})}$ *spaces* 89
Berkovič, Ja. G. *A subgroup characterization of certain finite groups* 940
Generalization of the theorems of Carter and Wielandt 1525
Berman, D. L. *A monotonicity principle in interpolation theory* 944
Extremal problems in the theory of polynomial operations 1113
On some identities in the general theory of orthogonal polynomials and their applications 1263
Besov, O. V.; Il′in, V. P. and Lizorkin, P. I. L_p*-estimates of a certain class of nonisotropic singular integrals* 1065
Besov, O. V.; Kadlec, Ja. and Kufner, A. *Certain properties of weight classes* 1497
Bicadze, A. V. *A criterion for the convergence of the gradients of a sequence of harmonic functions* 708
Bikjalis, A. *Remainder terms in multidimensional limit theorems* 705
Biluta, P. A. *Extremal quasiconformal mapping for arbitrary plane regions* 1387
Birman, M. Š. and Solomjak, M. Z. *Approximation of the functions of the classes* W_p^a *by piecewise polynomial functions* 1573
Stieltjes double operator integrals and multiplier problems 1618
Borok, V. M. and Žitomirskiĭ, Ja. I. *Stability of the correctness classes for the Cauchy problem for an equation correct in the sense of Petrovskiĭ* 399
Borovkov, A. A. *Some limit theorems on the distribution of functionals of processes asymptotically close to Markov processes* 948
Bredihin, B. M. and Linnik, Ju. V. *Ergodic properties of solutions of binary additive problems* 254
Asymptotic behavior in the general Hardy-Littlewood problem 740
Bredihina. E. A. *The divergence of Fourier series of almost periodic functions* 1530
Brègman, L. M. *A relaxation method of finding a common point of convex sets and its application to problems of optimization* 1578
Budak, B. M.; Gol′dman, N. L. and Uspenskiĭ, A. B. *Difference schemes involving the rectification of fronts for the solution of many-front problems of Stefan type* 454
Buhštaber, V. M. *The J-functor of cellular complexes* 1118
Buledza, A. V. *An approximate method of solving boundary value problems for the biharmonic equation* 1208
Čarušnikov, V. D. *A minimax problem in the theory of cubature formulas* 600
Asymptotic estimation of the error in cubature formulas with a Sobolev regular boundary layer 1340

Čašečnikov, S. M. *Geometry of an m-surface in affine space* 137
Černavskiĭ, A. V. *Singular points of topological imbeddings of manifolds, and the union of locally flat cells* 433
Černikov, S. N. *Algebraic theory of linear inequalities* 1019
Groups with given properties for systems of infinite subgroups 1565
Cinman, L. L. *Bases of primitive-recursive closed classes of functions* 1151
Čirka, E. M. *Approximation of continuous functions by functions holomorphic on Jordan arcs in C^n* 336
Čoban, M. *Metrizability behavior in the case of factor s-mappings* 141
Metrizability behavior under monotonic factor mappings 696
Čunihin, S. A. *Indexials and normalizers* 437
Daleckiĭ, Ju. L. *Differential equations with functional derivatives and stochastic equations for generalized random processes* 220
Elliptic operators in functional derivatives and diffusion equations connected with them 1399
Demidov, G. V. *Some theorems on the solutions to a problem in meteorology* 154
Demidov, G V. and Marčuk, G. I. *An existence theorem for the problem of short term weather forecast* 1310
Dem′janenko, V. A. *The rational points of a class of algebraic curves* 1626
Dem′janov, V. F. *A necessary condition for an extremum in control problems with persistence* 60
Dem′janovič, Ju. K. *Approximation and convergence of the net method in elliptic problems* ... 1129
Dikarev, V. A. *Imbedding theorems for a class of function spaces* 805
Dikarev, V. A. and Macaev, V. I. *An exact interpolation theorem* 752
Dolgačev, I. V. *On Severi's conjecture concerning simply connected algebraic surfaces* 1169
Dolženko, E. P. *Uniform approximations by (algebraic and trigonometric) rational functions and global functional properties* 102
Dynkin, E. B. *General supplementary conditions for boundary value problems with oblique derivatives* 712
Džabrailov, A. D. *An integral representation of smooth functions and certain families of function spaces* 269
Džuraev, A. *Mutually conjugate boundary value problems for a system of three first-order equations of composite type* 1448
Egorov, A. I. *Optimality conditions for systems containing distributed-parameter components* 1629
Egorov, Ju. V. *Hypoelliptic pseudodifferential operators* 808
Pseudodifferential operators of principal type 1534
Egorov, Ju. V. and Kondrat′ev, V. A. *A problem with an oblique derivative* 1271
Epifanov, G. V. *Reduction of a plane graph to an edge by a star-triangle transformation* 13
Èskina, M. S. *The direct and the inverse scattering problem for a partial difference equation* 193
Evgrafov, M. A. *Asymptotic properties of the resolvent of an integral equation with kernel depending only on differences of the variables* 615
Integral representation of functions of exponential growth 671
Fan Din′ Zieu [Phan Đình Diệu] *On spaces adjoint to constructive locally convex spaces* 43
Fedorčuk, V. V. *On ordered spaces* 1011
Fedorjuk, M. V. *Asymptotic behavior of eigenvalues and eigenfunctions of one-dimensional singular differential operators* 929
Fomenko, O. M. *Representation of parabolic forms by theta series* 134

Fomenko, V. T. *Distribution of nonrigid bushing connections for a convex surface* 292
Estimate of the power of a set of nonrigid sleeve couplings in the case of surfaces of revolution 1015
Freĭdlin, M. I. *On the formulation of boundary value problems for degenerating elliptic equations* 1204
Fuks, B. A. *Ricci curvature of a Bergman metric invariant under biholomorphic mappings* 525
Gaĭdukov, E. V. *Asymptotic geodesics on a Riemannan manifold nonhomeomorphic to the sphere* 1033
Gasymov, M. G. and Levitan, B. M. *The inverse problem for a Dirac system* 495
Determination of Dirac's system from the scattering phase 543
Gel′fand, I. M.; Graev, M. I. and Šapiro, Z. Ja. *Integral geometry on a manifold of k-dimensional planes* 801
Gel′fand, I. M. and Kirillov, A. A. *Fields associated with enveloping algebras of Lie algebras* 407
Gel′man, I. V. *Stability of normally solvable extensions of partial differential operators* 1344
Geronimus, Ja. L. *Some remarks on the method of coefficients* 263
Gerver, M. L. *Metric properties of harmonic functions* 210
Ginzburg, Ju. P. *Multiplicative representations of bounded analytical operator-functions* 1125
Gišarde, A. [Guichardet, A.] *A letter to the editors* 796
Gol′dberg, A. A. *On deficient nonasymptotic values of meromorphic functions* 1444
Gol′dberg, M. K. *On the diameter of a strongly connected graph* 1267
Gol′dman, M. A. and Levič, E. M. *The existence of invariant complements to certain subspaces determined by a linear operator* 53
Golo, V. *On some differential topological invariants of multiply connected manifolds* 1590
Golodec, V. Ja. *Factor representations of anticommutation relations* 315
Golosov, Ju. I. *Gaussian measures equivalent to gaussian Markov measures* 48
A method of evaluating the Radon-Nikodym derivative of two Gaussian measures 1162
Golovin, V. D. *Duality in spaces of holomorphic functions with singularities* 571
Gol′štynskiĭ, V. [Holsztyński, W.] *Hausdorff spaces of minimal weight* 667
Zero-dimensional stationary subsets of finite-dimensional metric spaces 1500
Goluzina, E. G. *The mutual growth of the coefficients of a class of p-valent functions* 992
Gončar, A. A. *Quasianalytic continuation of analytic functions through a Jordan arc* 213
Greendlinger, E. I. see Grindlinger, E. I. .....
Grindlinger, E. I. [Greendlinger, E. I.] *On the unsolvability of the word problem for a class of semigroups with a solvable isomorphism problem* 1502
Grobman, D. M. *Analogy of systems of differential equations near a singular point* 9
Gromova, L. G. *The nature of the dependence of solutions of certain hyperbolic equations on the initial functions* 56
Gudiev, A. H. *Imbedding theorems for spaces with a mixed norm* 97
Guichardet, A. see Gišarde, A.
Gurariĭ, V. I. *Subspaces and bases in spaces of continuous functions* 500
Gurariĭ, V. P. *Primary ideals in the space* $\mathfrak{L}(0, \infty)$ 266
Gurevič, Ju. Š. *On the decision problem for the pure restricted predicate calculus* 217
The decision problem for the restricted predicate calculus 669
Gusarov, L. A. *Estimates of solutions of the first boundary value problem for higher-order parabolic equations* 150

Guseĭnov, A. I. and Muhtarov, H. Š. *A method of investigating nonlinear singular equations* 748
Gusev, V. A. *An integral functional and its norm* 575
Gusman, S. Ja. *Schottky-Ahlfors forms and some extremal problems on differentiable manifolds* 1166
Gvazava, D. K. *A contribution to the theory of boundary value problems for the equation* $y^m u_{xx} + u_{yy} = k(x, y) e^u$ *in the large* 364
Hadžiev, Dž. *Some problems in the theory of vector invariants* 1608
Haĭmulin, Ju. N. *Some properties of* $\{k; n\}_q$*-arcs in Galois planes* 1100
Halilov, Z. I. and Aslanov, È. Dž. *A variational problem in Hilbert space with an application to partial differential equations* 1056
Has′minskiĭ, R. Z. *Certain limit theorems for the solution of differential equations with random right-hand member* 731
Helemskiĭ, A. Ja. *An analytic condition on the radical of a commutative Banach algebra, and related decomposability problems* 430
Hmelevskiĭ, Ju. I. *Word equations without coefficients* 1611
Holsztyński, W. see Gol′štynskiĭ, V.
Ibragimov, I. I. and Agamaliev, Č. G. *Completeness of the system of analytic functions* $\{z^n F^{(n)}(\lambda_n z)\}$ 675
Ibragimov, I. I. and Gamidov, A. A. *Compound approximations of functions of a complex variable in opposite angles by means of entire functions* 18
Ibragimov, I. I. and Rymarenko, B. A. *Some extremal problems with side conditions in the class of entire functions of finite degree* 63
Il′in, A. M. *Parabolic equations with continuous coefficients* 1634
Il′in, V. A. *Almost everywhere divergent Fourier series in eigenfunctions of multidimensional domains* 1177
Inasaridze, H. N. *Extensions and complements of finite order of a completely regular space* 229
A generalization of perfect mappings 620
Ioffe, A. D. *Transformations of correctly posed variational problems* 623
Iohvidov, I. S. *Banach spaces with J-metric. J-nonnegative operators* 896
J-nonstretching operators in a Banach space 962
On the signatures of Toeplitz forms 1074
Ismagilov, R. S. *Rings of operators in a space with an indefinite metric* 1460
Ismagilov, R. S. and Martynov, V. V. *Discreteness test for the spectrum of a selfadjoint system of first-order differential equations with slowly varying coefficients* 548
Ivanov, A. V.; Ladyženskaja, O. A.; Treskunov, A. L. and Ural′ceva, N. N. *Certain properties of generalized solutions of second-order parabolic equations* 579
Ivanova, G. P. *Existence theorems in the calculus of variations* 1173
Jakovlev, G. N. *On the density of finite functions in weight spaces* 1300
Jakubov, S. Ja. *The Cauchy problem for second-order differential equations in Banach space* 735
Jakubovič, V. A. *Finitely convergent recursive algorithms for the solution of systems of inequalities* 300
Periodic and almost periodic limit states of controlled systems with several, in general, discontinuous nonlinearities 1517
Janenko, N. N. and Demidov, G. V. *Investigation of the Cauchy problem by the weak approximation method* 567
Janušauskas, A. *A class of singular integral equations* 145

Javrjan, V. A. *On the regularized trace of the difference between two singular Sturm-Liouville operators* 888
Kacnel′son, V. È. *The distribution of the zeros of a Fourier transform in the complex plane* . 1463
Kadec, M. I. *Topological equivalence of all separable Banach spaces* 319
Kagan, A. M. *The sample mean as an estimator of a shift parameter* 1041
Kalinin, V. M. *Asymptotic expansions for some probability distributions frequently encountered* 107
Kalužnin, L. A. and Havidi, H. *Geometric theory of the unitary equivalence of matrices* 1044
Kamynin, L. I. *On a problem in biophysics* 994
Kapilevič, M. B. *On the confluent hypergeometric functions of Humbert and Horn* 1357
Karacuba, A. A. *Asymptotic formulas for a class of trigonometric sums* 845
Katok, A. B. and Stepin, A. M. *Approximation of ergodic dynamic systems by periodic transformations* 1638
Keldyš, Ljudmila *Topological imbeddings and pseudoisotopy* 1078
Kiprijanov, I. A. and Kononenko, V. I. *Fundamental solutions of partial differential equations with a Bessel differential operator* 1181
Kirillov, A. A. *Classification of irreducible unitary representations of a group of second-order matrices with elements from a locally compact field* 628
Kissina, L. M. and Švarc, A. S. *On the description of the duality functor* 372
Kljušin, V. L. *Spaces resolvable into spectra consisting of metric spaces* 274
Kloss, B. M. *Estimates of the complexity of solutions of systems of linear equations* 1537
Kogalovskiĭ, S. R. *On higher order logic* 1642
Kolesov, Ju. S. *A test for the existence of periodic solutions to parabolic equations* 1318
Kompaniec, V. P. and Černavskiĭ, A. V. *Equivalence of two classes of sphere mappings* 1083
Kononenko, A. I. and Mil′man, V. D. *A numerical method for finding asymptotically stable solutions of a system of ordinary differential equations* 459
Kopylov, A. P. *The behavior of a quasiconformal mapping of three-dimensional space on plane sections of its domain of definition* 463
Homeomorphic mappings in three-dimensional Euclidean space that preserve angles between rays 1321
Kordzadze, R. A. *A class of singular integral equations with shift* 811
Korenbljum, B. I. *Conditions of nontriviality of certain classes of functions analytic in a sector, and problems of quasianalyticity* 232
Korneĭčuk, N. P. and Polovina, A. I. *Approximation of continuous and differentiable functions by algebraic polynomials on an interval* 66
Koromysličenko, V. D. *The direct and inverse Markov problem in the complex domain* 22
Kostjučenko, A. G. *Distribution of eigenvalues for singular differential operators* 584
Asymptotic behavior of the spectral function of a singular differential operator of order 2m 632
Kostrikin, A. I. and Šafarevič, I. R. *Cartan pseudogroups and Lie p-algebras* 715
Kovalenko, I. N. *On a statistical characterization of symmetric stable distribution laws* 1134
Kozlov, M. V. *On the rank of matrices with random Boolean elements* 1048
Kozlov, V. P. *Set capacity in signal space and the Riemann metric* 162
Krasičkov, I. F. *Closed ideals in the locally convex algebra of entire functions with an arbitrary growth majorant* 1324
Kravickiĭ, A. O. *Expansion in a series of eigenfunctions of a nonselfadjoint boundary value problem* 1361
Kreĭn, M. G. and Saakjan, Š. N. *Some new results in the theory of resolvents of Hermitian operators* 1086

Krein, M. G. and Šmul'jan, Ju. L. *A class of operators in a space with an indefinite metric* 1137
Kreĭn, S. G. *Correctness of the Cauchy problem and analyticity of the solution of the evolution equation* 1594
Kreĭn, S. G.; Petunin, Ju. I. and Semenov, E. M. *Hyperscales of Banach structures* 1185
Kreĭn, S. G. and Simonov, A. S. *The homeomorphism theorem and quasilinear equations* 551
Kreĭnin, Ja. L. *Effectively Φ-inseparable sets* 760
Kričevskiĭ, R. E. *The block length necessary to obtain a given redundancy* 1416
Krikunov, Ju. M. *The Tricomi problem for an elliptic-hyperbolic Euler-Poisson-Darboux equation* 1646
Krivenkov, Ju. P. *Linear dynamic programming with unbounded control* 410
Kruškal', S. L. *On the theory of extremal problems for quasiconformal mappings of closed Riemann surfaces* 1541
Kružkov, S. N. *Solutions of first-order nonlinear equations* 376
A priori estimate for the derivative of a solution to a parabolic equation and some of its applications 1215
Kufarev, B. P. *Relations of the type of the "principle of length and area"* 1189
Kuharev, V. G. *The critical determinant of the region* $|x|^p + |y|^p \leq 1$ 1090
Kušner, B. A. *Certain properties of quasinumbers and of operators from quasinumbers into quasinumbers* 1467
Kuzik, G. A. and Suvorov, G. D. *The extended concept of quasiconformality of a plane mapping, and linear systems of differential equations of mixed type* 636
Landis, E. M. *A property of solutions of parabolic equations* 900
Langer, G. K. [H. Langer] *Invariant subspaces of linear operators on a space with indefinite metric* 849
Lašnev, N. *Closed images of metric spaces* 1219
Lavrent'ev, I. M. *On the variational theory of nonlinear equations* 69
Lavrent'ev, M. M. and Romanov, V. G. *Three linearized inverse problems for hyperbolic equations* 1650
Lavrik, A. F. *Functional equations of Dirichlet functions* 1471
Lebedev, N. A. *An application of the area principle to problems of nonoverlapping finitely connected domains* 323
Inverse theorems of uniform approximation 1545
Lenskoĭ, D. N. *A contribution to the theory of prime numbers* 904
Lepin, A. Ja. and Myškis, A. D. *Existence of a solution of a boundary value problem for an ordinary nonlinear differential equation of nth order* 853
Levin, A. Ju. *Classification of nonoscillatory cases for the equation* $\ddot{x} + p(t)\dot{x} + q(t)x = 0$ *where* $q(t)$ *is of constant sign* 1599
Levin, B. V. and Faĭnleĭb, A. S. *Distribution of values of additive number-theoretic functions* 1474
Levitin, E. S. and Poljak, B. T. *Convergence of minimizing sequences in conditional extremum problems* 764
Lidskiĭ, V. B. and Frolov, P. A. *Stability regions of complex selfadjoint systems of differential equations* 1421
Lihterov, Ja. M. *Certain conditions for mutual convergence of functions* 907
Linnik, Ju. V. *Approximately minimax detection of a vector signal on a Gaussian background* 966
Linnik, Ju. V.; Pliss, V. A. and Šalaevskiĭ, O. V. *On Hotelling's test* 719
Lipko, B. Ja. and Èĭdel'man, S. D. *A contribution to the theory of parabolic potentials* 237

Lizorkin, P. I. *Nonisotropic Bessel potentials. Imbedding theorems for Sobolev spaces $L_p^{(r_1,\cdots,r_n)}$ with fractional derivatives* 1222
Ljance, V. È. *The inverse problem for a nonselfadjoint operator* 27
Ljubič, Ju. I. *Investigation of the deficiency of the abstract Cauchy problem* 166
Conditionality in general computational problems 1549
Makanin, G. S. *The identity problem in finitely defined semigroups* 1478
Makarov, V. S. *A certain class of discrete Lobačevskiĭ space groups with an infinite fundamental region of finite measure* 328
Malozemov, V. N. *Joint approximation of a function and its derivatives by algebraic polynomials* 1274
Mamedov, Ja. D. *One-sided estimates in the conditions for asymptotic stability of solutions of equations with unbounded operators* 110
Mamedov, Š. R. *Strong analyticity and strong quasi-analyticity of functions of several variables* 170
Margulis, G. A. *Positive harmonic functions on nilpotent groups* 241
Maslennikov, M. V. *The characteristic equation in the theory of radiative transfer* 723
Milne's problem with an arbitrary indicatrix taking into account the azimuthal inhomogeneity of the solution 768
Maslov, S. Ju. *Application of the inverse method for establishing deducibility to the theory of decidable fragments in the classical predicate calculus* 1653
Mazurov, V. D. *Finite groups with a given Sylow 2-subgroup* 678
Medvedev, Ju. T. *Interpretation of logical formulas by means of finite problems* 857
Mel'nik, Z. O. *Multidimensional hyperbolic equations of arbitrary order with discontinuous coefficients* 503
Mihaĭlov, L. G. and Usmanov, Z. D. *Infinitesimal bendings of a surface of revolution with positive curvature and with a conical or parabolic point at the pole* 174
Miheeva, E. A. *Uniqueness of solution of the second and third boundary value problem for a second-order elliptic equation* 507
Mihlin, S. G. *Calculation of the index of a system of one-dimensional singular equations* 815
Millionščikov, V. M. *On the stability of characteristic indices of the limiting solutions of linear systems* 31
The structure of the fundamental matrices of R-systems with almost periodic coefficients 1481
Minc, G. E. *Skolem's method of elimination of positive quantifiers in sequential calculi* 861
Herbrand's theorem for the predicate calculus with equality and functional symbols 911
Mirakov, V. E. *Conditions for the solvability of the Čaplygin problem* 1277
Moiseev, N. N. *Asymptotic representations of solutions of linear differential equations with multiple elementary divisors of the characteristic equation* 1282
Molčanov, A. M. *Resonances in multifrequency oscillations* 640
Molčanov, V. F. *Harmonic analysis on a hyperboloid of one sheet* 1553
Mordkovič, A. G. *Test for correctness of a uniform space* 915
Morozov, V. A. *On the solution of functional equations by the method of regularization* 414
Mutylin, A. F. *Imbeddability of discrete fields into connected fields* 772
Nagnibida, N. I. *On isomorphisms of an analytic space that commute with a power of the differentiation operator* 555
Nahušev, A. M. *A problem of the mixed type for the equation $y(y-1)u_{xx}+u_{yy}=0$* 113
A boundary value problem for an equation of mixed type with two lines of degeneracy 1142

Naĭmark, M. A. *Representations of commutative symmetric Banach algebras and commutative topological groups in the Π_k space* 1192
An analogue of Stone's theorem in a space with an indefinite metric 1366
Nečiporuk, È. I. *A Boolean function* 999
Neĭmark, Ju. I. and Fišman, L. Z. *In-the-large behavior of phase trajectories of quasilinear differential equations with retarded arguments* 1424
Neĭštadt, L. [Neustadt, L. W.] *A general theory of variational problems with applications to optimal control* 1428
Nepomnjaščiĭ, V. A. *On a basis for recursively enumerable sets* 1369
Nersesjan, A. B. *The Cauchy problem for degenerating hyperbolic equations of second order* 278
Neustadt, L. W. see Neĭštadt, L.
Nguen Thya Hop *A contribution to the theory of Fredholm equations of the first kind* 178
Normal solvability of the Dirichlet problem for the Bicadze type of elliptic system 511
The Dirichlet problem for strongly connected systems of elliptic type 1486
